Kentuckians, Attention

President Wilson has astounded the Nation by a public appeal, in which he asks that only Democrats be elected to Senate and Congress, despite the remarkable record of Republican members of Congress in support of the war. He would have you believe that Democrats only are loyal Americans and that they only are fitted to follow his bidding in matters affecting the war. The President is willing for you to send your sons to the battle line and give your money for war purposes, but he is unwilling for Republicans to help in the settlement of the problems of the war and of the peace that will follow. He asks you to elect Owsley Stanley to the Senate solely because he wears a party badge and in spite of his record on Prohibition, Pardons and Public Schools.

Ex-President Taft said: "President Wilson seeks autocratic power. The President wishes to become absolute ruler by banishing political opposition."

The Cincinnati Enquirer, leading Democratic newspaper, said editorially on Sunday, October 27: "President Wilson's plea for support of the candidates of his party as a pledge of support to himself is ill-timed and ill-advised, if indeed advice was asked or received. All America is supporting the administration regardless of politics. We believe that such support will still be accorded the President regardless of the outcome of the election, whether they are Democrats or Republicans. We believe in placing Americans and Americans only on guard. That is the test that should be applied to every man's candidacy."

Kentuckian, vote and have your neighbors vote on next Tuesday for Ben L. Bruner. He is able, clean and he is patriotic. He stands for the higher ideals in public service. Put only Americans on guard. Show by your vote that the people of Kentucky demand peace without compromise. Thank God, U. S. stands for unconditional surrender.

REPUBLICAN STATE CAMPAIGN COMMITTEE.

OCTOBER 27th

NOTICE TO HALLOWEEN REVELERS

On account of the sickness in this city Mayor Thomas M. Russell today issued special orders to Chief of Police Harry A. Ort to instruct the police force to arrest ALL persons who engage in any Halloween revelry or pranks of any sort and place them in jail. They will be heavily fined. A number of special police have been sworn in and it is hoped that no one will so far forget himself as to overstep Mayor Russell's orders.

AUSTRIANS ARE FACING OVER- WHELMING DEFEAT

Enemy in Retreat on Italian Front of
Forty Miles —Thousands More
Are Captured—Foes, Lacking
In Millions, Trying to
Withdraw Big Guns

At Italian Headquarters, on the
Piave, October 30 — Austrian forces
are retreating on a front of forty
miles under ever increasing pressure
and it is believed that the defeat
of the enemy will be overwhelming when
the entire Allied force can enter the
action.

(So far, the attacking army has
comprised British, French and Italian
troops. It was announced, Tuesday,
that American units were in reserve
on the Piave front.)

With three successive days of fair
weather an extremely large body of
troops, with supplies, has crossed the
pontons over the Piave. It is expected
that the Austrian munition supply
will give out. There are indications
that the enemy's heavy artillery is being
withdrawn in an effort to save the
big guns.

One hundred and fifty guns and 10-
000 additional prisoners were captured
yesterday. Monte Grappa has been
attacked violently by the enemy, but
the action resulted in his repulse. The
enemy forces are estimated at
600,000.

King Victor Emmanuel visited the
reconquered territory yesterday. The
correspondent saw him helping to
straighten out traffic on a crowded
road, over which Italian troops and
thousands of Austrian prisoners were
passing. The Italians cheered the king
who smiled and shook hands with the
Italian soldiers nearest him.

The American Red Cross is pre-
paring to assist the Italian popula-
tion in towns evacuated by the Aus-
trians. The majority of these people
are old men and women and children.
For ten miles back of the river the
country has been isolated. Only one
house is left standing at Cimannolmo.

Austria Assembles Its Fleet at Fiume

Paris, October 30 — The Austrian
fleet has been concentrated hastily at
Fiume, according to a dispatch from
Rome to the Temps under date of Oc-
tober 27. A few vessels remain at
Pola, but all that were at Cattaro have
left. It is said that the concentra-
tion was demanded by Hungary.

Americans Down 18 Enemy Planes

London, October 30—Eighteen enemy
airplanes were shot down by
American aviators in the fighting
northwest of Verdun. Five American
planes were lost. Thirty-two enemy
machines were destroyed and 10 were
driven out of control yesterday by
British aviators, according to the
official communication. The British in-
dependent air force has carried out
successful raids in the last few days,
including attacks on important rail-
way junctions.

PROF. C. S. DALE'S BROTHER DIES AT FISHER, ILL.

Prof. C. S. Dale of this city morn-
ing received a telegram announcing
the death of his brother, Mr. Harrison
Dale, aged 50, at his home at Fisher,
Ill., at 3 o'clock this morning, after
a brief illness of influenza.
Mr. Dale was a farmer, and is sur-
vived by a widow and two sons, aged
2 and 4 years; also two brothers,
Prof. C. S. Dale of this city and Mr.
A. A. Dale of Myers, Nicholas county,
and his mother, who resides at Pax-
ton, Ill. Mr. Dale was born in Lewis
county and has been farming the past
ten years. His remains will be buried
at Fisher, Ill.

DEATH OF MISS LULA VICROY

Miss Lula Vicroy aged about 35,
died at her home on West Second
street Tuesday afternoon. She had
been afflicted all her life, and her
death was due to a complication of
diseases. She is survived by her
mother and two brothers, Mr. Charles
Vicroy, the police mail carrier on
Route No. 5 out of this city, and Mr.
William Vicroy, a telegrapher sta-
tioned in West. Owing to the inabil-
ity to hear from her brother the fun-
eral arrangements have not been an-
nounced.

The recent rise out of the Kanawha
rivers brought the Ohio up to a splen-
did boating stage, enabling all the
surplus coal at Point Pleasant to be
shipped, as well as cleaning up a
large amount of country produce that
was waiting shipment along the Ohio.

NEW PEACE NOTE FROM THE GERMANS

Offers Evidence That Kaiser Has Been
Shorn of All Power to Make War
Or Negotiate Peace—Actual
Government Now in Reich-
stag, It Declares.

Washington, October 30—Another
note from the German government
reached Washington today. It supple-
ments the last brief communication,
saying in detail governmental changes
which have taken place in Germany
as evidence that the Kaiser has been
deprived of all power of making war
and negotiating peace.

This time the Germans do not ad-
dress President Wilson personally,
but send the information for the
American Government, apparently re-
cognizing that the stage of personal
appeals has passed with the transmis-
sion of their armistice and peace plea
to the Allies.

It reiterates that the actual pow-
er and responsibility of the govern-
ment has been transferred to the
Reichstag and describes the progress
of the necessary constitutional
changes.

The note probably will be forward-
ed immediately to Paris, where the
Supreme War Council already is re-
ported to have formulated terms up-
on which the United States and the
Allies might permit a cessation of
hostilities.

As word of the new German move
came, it was learned that President
Wilson was working today on a reply
to the last note from Vienna in which
the Austrian government accepted all
principles and conditions of the Pres-
ident and asked for armistice and
peace proposals.

The reply which probably will be
made public before night, it is expected
to inform the authorities at Vienna
that on the basis of acceptance of all
conditions, including actual independ-
ence and not mere autonomy for sub-
ject nationalities, their request has
been referred to the governments with
which the United States is associated.

Armistice and Peace Terms For Ger- many To Be Issued Together

London, October 30—The terms, up-
on which Germany can have an arm-
istice and also peace will be made
known soon. The terms have been
agreed upon by the Versailles War
Council.

The peace and armistice terms will
be issued simultaneously. The peace
conditions, it is understood, will be
President Wilson's 14 points in mod-
ified form, embodying conditions which
have arisen within the last year.

London believes Germany will ac-
cept both the armistice and peace
terms. It is known that Germany
really has been trying to stop the op-
erations of her U-boats.

Austria is expected to accept any
terms that are offered. The fact that
the Czech-Slavs and the Jugo-Slavs
control Austria's food supply has
played a large part in forcing the cap-
itulation of Germany's chief ally.
Capitulation of Turkey is imminent
and the armistice has already been
prepared, it was learned on high au-
thority today.

ACCUSED OF MAKING FALSE STATEMENTS

Maysville Man Makes a Strong Denial
of Making Any Disloyal Remarks.

Mr. J. H. Patton of Louisville, who
is here making strenuous efforts to
induce men to go to Camp Knox to
help finish the work that is to be done
there by December 1st, had it told
him that several men here had made
some strong talk against conditions at
the camp, among them being our fel-
lowtownsman, Mr. Martin G. Bierley,
Mr. Patton called on Mr. Bierley,
who issued the following strong den-
ial:

To Whom It May Concern:

My attention has been called to var-
ious rumors asserting that I have
made derogatory statements concern-
ing conditions at Camp Knox. I wish
to say that the same are not as I was
being quoted. One rumor is that I was
compelled to stand in the rain for one
hour and a half for a meal. This is
absolutely false. Another German lie
is that I was compelled to line up at
every meal for a meal ticket, then line
up again for a meal, and only one
hour being allowed for each meal, at
some meals the hour had passed be-
fore I could get my meal. This is
absolutely untrue. One can buy a
meal ticket for five meals at \$1.50, or
ten meals at \$3.00 or twenty meals at
\$6.00, as he wishes to do, and does not
have to line up for a ticket at each
meal, and I have never made this
statement to anyone.

I went to Camp Knox to do my duty
for our Government, and only return-
ed to Maysville because I am not used
to outdoors work and can not stand
it, as most everybody knows in Mays-
ville I have virtually always worked
indoors.

If the names of the people starting
such lies, branding me as one of their
breed, are learned by me I will turn
them over to the Department of Jus-
tice for prosecution.

(Signed) M. G. BIERLEY.
W. O. OUTTEN, Witness.
J. H. PATTON.

Reserve.

From present indications it is
thought the influenza epidemic has
about run its course around here, as
the few new cases are of a mild char-
acter and no deaths have been re-
ported. With such conditions con-
tinuing it is thought things can as-
sume normal shape by next week.

IMPROVEMENTS AT THE LIBERTY TOBACCO HOUSE

Designed to Relieve Congestion and
Will Make It a Very Complete
Loose Leaf House.

Workmen are engaged in making
some very necessary improvements at
the Liberty Loose Leaf Tobacco Ware-
house on Commerce street that will
make it one of the best in this city.

A large storage basement is being
put under the North wing that will
enable the managers to clear the
floors after a sale and be ready for
unloading wagons and placing the
baskets for the next sale within a
very brief time, thus enabling farm-
ers to be able to get in and unload
the same day they arrive and prevent-
ing congestion as heretofore, which
has been one of the great obstacles
that the management have been fig-
uring on overcoming.

On the inside of the warehouse
there will be a double floor laid along
the wagon entrance side, the first be-
ing of two-inch oak and will be top-
ped with a three-quarter flooring that
will make it smooth. This will be put
down from the side next to the rail-
road over to the scales, a large por-
tion of the old floor having rotted out,
necessitating a new one.

All around the inside the walls will
be sealed from the floor up to the roof,
making the interior much more com-
fortable and more sightly.

A few minor details will be added
to the inside that will make it a very
completed and up-to-date place in
which to transact business.

FORMER MAYSVILLEANS AFFLICTED

A letter to a friend here from Mrs.
Frank Nash at Dayton, Ohio, stated
that their entire family save Mrs. J. P.
Nash had been ill with influenza and
pneumonia, but all had recovered suf-
ficiently to be able to go around save
Mr. Ward Nash and Miss Helen, his
sister, they still being bedfast, as are
Mr. and Mrs. Robert Nash.

THE HOME OF QUALITY CLOTHES

WE WANT OUR CUSTOMERS TO KNOW THAT WE ARE GIVING THEM

MUCH BETTER THAN ORDINARY VALUES

We are selling strictly high-class merchandise at the lowest prices that we can consis-
tently charge.
Our friends will, we believe, appreciate being able to come here and get up-to-date, reliable
goods, fairly priced.

Suits and Overcoats

We invite every man interested in good clothes to come in and see the well tailored and
thoroughly dependable suits and overcoats. There are handsome and appropriate models for
men of all ages and sizes.

D. Hechinger & Co.

Warmth-Giving Underwear

The kind that defies the piercing winds of late Autumn and Winter. All women who would enjoy cold weather comfort
will approve of these fine wool and cotton garments. Many weights are represented at various prices.

Make the Home Cheery

The hearth will seem brighter if your floor is covered with one of the rich, beautifully designed rugs we are selling so many
of. Axminsters and Wiltons are priced at \$35 to \$85, according to size.

Crisp Undermuslins

—are always requisite in women's outfitting. Here are now ly arrived garments, spick and span after their long journey to this
section. Fulfill your needs while this assortment lasts.

Aprons Are Always Useful

The housewife who hasn't several aprons about her home to don when there isn't time to change her frock, will welcome this
selling of aprons of all kinds. Gingham, percales, white aprons and a wealth of others. "Red Cross" Nurses Aprons at \$1.50.

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

REPUBLICAN TICKET

For United States Senator
BEN L. BRUNER, Louisville.
 For Congressman
TRUMBO SNEDEGAR, Bath County.

BUT, SUPPOSIN'

In a case recently decided by the United States General Appraisers at New York, involving the importation by George Borgfeldt & Co. of a quantity of chinaware from Germany, prior to our entry into the war, the importers contended that the goods were correctly invoiced, while the board found the chinaware was undervalued, or in other words, that the export prices were lower than the prices asked by the manufacturers for the same merchandise in Germany—the old German trick known to trade as “dumping.” Under the board's decision, the importers become liable for the payment of an additional 15 per cent. “dumping” duty, imposed by a Democratic law passed two years ago. All right.

But suppose the invoice value of those goods had been identical with the prices asked by manufacturers for the same merchandise in Germany? Still the importers would have been able to bring these goods into this market and undersell American chinaware because of the advantage held over our manufacturers by reason of the low German wage scale. But the dumping law would not have touched them. Only a protective tariff would apply to them. That is the chief danger which we face when peace and competition return. The danger is not so much that Europe will dump goods on us that they will ship goods to our shores at prices which our factories can not meet. A dumping clause, standing alone would be of little, if any value. Harness it up to a protective tariff law and the danger of European monopoly of our market would be averted. That is the Republican stand on this question.

OUR BRAVE NURSES

What brave, devoted women are the nurses! They have gone off to wherever sickness calls, consulting only their duty and never the danger. They are as brave and patriotic as the men in the trenches, and the whole community should bow in praise and admiration of the girl who goes to the bedside of a stricken mother or child. We know of one girl, who is a professional nurse, but engaged in other business, but when she heard the call from Camp Sherman told her employer she held her diploma as a trained nurse and it was her duty to go. That was the obligation she was under to her profession. She couldn't go out and face a storm of bullets, but she could face an epidemic, and she did. The more one sees the woman in this war the more he wants to take off his hat to her. They are brave as heroes massed for the last charge.—Ohio State Journal.

NO TALK-FIGHT

The American people do not want and will not stand any camouflaging on the part of the old German government or the “new” German government which is but a tool of the old to get Emperor William out from under and save his face. It isn't a time for rhetoric or uses of the typewriter. It is up to Bill to surrender and take what is coming to him and we our Allies will not accept any other kind of peace. Bill should thank his stars and his little personal German “gott” that he cannot get off that well. The people in America are not in humor for more meaningless talk. There's been too much now.

Tired, Nervous Women

What You Need is Vinol

The reason we recommend Vinol so strongly for such conditions is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates, the very elements needed to build up a run-down system and replace weakness with strength.

HERE IS PROOF

Glasgow, Jct., Ky. —“I was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight.”—Mrs. S. M. Gray.
 Milwaukee, Wis. —“I was weak, nervous, all run down, no appetite and had taken different medicines without benefit. A friend advised me to try Vinol. It gave me a wonderful appetite, I sleep well, have gained in weight and am now strong and well.”—Mrs. E. Strey.
 For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Vinol Creates Strength

AIRCRAFT MEN AID SURGEONS “ON THE SIDE”

Spruce Division Gathers Precious Moss for Dressings.

(By Carl M. Schultz)

Out beyond those Cascade mountains where the boys of the “spruce division” are fighting and working to get sufficient material for allied airplanes, is a commodity much sought by medical authorities. It is sphagnum moss.

It is a moss of the highest value medically. It is four and a half times as absorbent as cotton and can be put to the same uses. It is vastly cheaper and easier to gather, but not so abundant.

It is a new proposition in the medical world as far as its present uses are concerned. So far the authorities have not been able to gather it in sufficient quantities to satisfy the demands for it. The Red Cross started to use it for dressings and in place of cotton fillings, but lack of supply made it impossible to use it as extensively as was desired.

About a mile from the Pacific ocean all along the spruce border in Washington and Oregon are vast beds of sphagnum. So far the supply in this territory has been practically untouched. However, the members of this unique division are doing all in their power to devote their spare time, scarce as that is to the gathering of the moss for their companions on the western front. The Y. M. C. A., which has organized a net work of huts and houses all over the 500 mile area of forest land, is helping materially toward the organization of picking parties.

Not long ago the Rev. William C. Covert, pastor of the First Presbyterian church of Chicago, who spent several months in the spruce area organizing the Y. M. C. A. work in the spruce division, spent one Sunday in the moss beds and with the aid of about a hundred civilians and soldiers gathered almost 1,000 sacks of the moss. This is merely an example of what is being done and of what can be done.

The “Y” secretaries who have charge of the various huts and houses are organizing parties among the men who use their recreation centers, and

among the civilians of the small villages in the district, to pick the moss. Almost every Sunday several parties go out.

The moss is a soft gray green substance which is easily pulled up by the roots. The whole affair is usable. When the bags are packed they are shipped to the nearby towns for treatment and final shipment. Portland, Ore., has given over a great many of its places to the furtherance of this growing occupation.

On the western front surgeons are using the moss wherever they are able to obtain it. If more were obtainable it is entirely possible that it would be used to an even greater extent.

So again the spruce division is showing that it is a most indispensable part of the army. It is fighting with the wilds of the west rather than with the wilds of the western front, but its work is just as important as that of any of the divisions on the fighting front.

It is not an easy matter for a division of men enlisted for the purpose of fighting a real live enemy to be side-tracked to the woods five thousand miles or more away from the action they crave. Yet such is the lot of these men. They don't like it, but they do it just as thoroughly and sincerely as they would the job in France. They are not shirkers—they are soldiers and real ones at that.

As a general thing the public is not acquainted with the work of this bunch of men, for they work quietly without the glory of their comrades, but nevertheless, they are there, and when the final reckoning comes they will be closed to the top.

PHILIPPINE LEGISLATURE TO HAVE NEW BUILDING

Manila, P. I.—Work on the new home for the Philippine legislature is now under way. The plans call for a structure costing approximately \$1,000,000 and for the work which will be completed this year \$150,000 has already been available from the \$1,000,000 appropriation designated to cover expenses in connection with preliminary work on this building, the executive building at Malacanang, the new postoffice, and the hospital dormitory.

It is all right to be jolly, but for every fellow who is jolly there is a jolier.

SAVES MONEY FOR SOLDIERS

Canada has fixed, by an order in council, the rates of pay and allowances for discharged soldiers and sailors undergoing treatment in sanatoria and hospitals. With a few variations, the pay will be the same as that which the man received in active service. Dependents will receive the militia or naval separation allowance.

Men who, after their return to civilian life, ultimately break down as a result of their war-time experiences, will be eligible to further treatment. Nearly 5,000 soldiers and sailors are under the care of the Department for Soldiers' Civil Re-establishment, the work of which partakes in some degree of that done by the United States War and Labor Departments and the Federal Vocational Board.

Allowances will be paid to dependents as follows: Wife only, \$10 a month; wife and one child, \$19; wife and two children, \$26; wife and three children, \$31. For each additional child \$5 is paid, but \$45 is the maximum. Men with dependents are also expected to assign to them at least \$20 from their pay.

While disabled men are being trained for civilian employment they will be allowed only \$8 a month for spending money. The rest of the money due them will be deposited to their credit in banks, to be retained until training is completed.

COTTON FOR AIRPLANES

(Leslie's Weekly)

One of the ways in which American industrial genius has registered importantly in the war against Germany was in developing a cotton fabric suitable for covering airplane wings. Its importance is appreciated when we learn that the enemy is now using wood for airplane wings. It means a further disadvantage for enemy airplanes. Our own fighting men require 1,200,000 yards of the airplane fabric monthly, and the demand is increasing rapidly. When the war began linen was the only material used for covering aircraft wings. The supply of linen had been ample to that time, because the airplane industry was in its infancy as far as quantity production was concerned. Belgium, Russia and Ireland furnished all that was needed. Then, as the supply from Belgium and Russia dwindled, the need for it increased tremendously. There was hardly enough for other requirements besides aircraft, and it soon was apparent that a substitute must be found to cover the wings of flying machines. America furnished the substitute. Cotton mill experts applied themselves zealously to the task under admonition from the Government that the exigency was very great. By September, 1917, a fabric having all the necessary qualities of linen was evolved. Contracts are now outstanding for more than 11,000,000 yards.

NEW COAL RECORD

The war is being fought and won in the coal mines of the Connellsville district as well as on the battlefields of France. In this section of the Pennsylvania coal lands, which is the largest single factor as to coal and coke for the national munitions program, a new high record was made in a week in an output of 744,842 tons.

Drink Milk==Eat Milk

It's the perfect food. And it's the cheapest food. It's nature's food. One quart of milk is equal in food value to eight eggs, or three-quarter pound of steak. Eight eggs at present cost 32 cents. The finished steak cost at least 28 cents. But a quart of milk does not cost 32 or 28 cents. It costs a good deal less than that.

The United States Food Administration says: “A quart of milk a day for every child, if possible, a pint without fail; a third of a quart for each adult.”

Think it over and ask for Pasteurized milk. Its safe to use.

JOBS FOR WOMEN ARE UNLIMITED

Time Has Come, Says C. T. Clayton,
To Take Up Regular Work
at Regular Pay.

The best way for many women to show their patriotism is to train for service. Efficiency was never a more highly prized asset than it is today. The Government is helping women to find the work they are best fitted to do, and suggesting how they can best train to fill places of men called to the colors.

"The time has now come when many women must drop their knitting needles for a field of greater service, cease volunteer work, and take a regular job for regular pay," says C. T. Clayton, Director of the Training and Dilution Service of the U. S. Department of Labor. "The fact that women may not be in need of the money has nothing to do with the case. The United States Government needs their service for production, and the Government is very particular about women being paid the same wage as men for services equally rendered."

"The patriotic thing is for women to do the work her training has fitted her to do, provided it has been along the line of an essential vocation. School teachers should stick to their calling no matter if munitions offer a higher reward. The youth of America must not be neglected."

"For the untrained woman, who has never worked in her life, industry probably offers a more profitable field than any other line of endeavor. Many factories are organizing training school in their plants. Two hundred factories, according to the Training and Dilution Service, are spending or preparing to spend millions solely in the work of intensive training of new workers. 750,000 new skilled workers are needed by the country by January first."

"The woman with nimble fingers who is not afraid of grease, and who is willing to cast aside for eight hours

a day her fluffy ruffles for overalls, her plumed bonnet for a service cap, and to concentrate on the task at hand is sure of a quick and certain reward. "There is an example: A girl from a country village far removed from any war-producing industry came to the U. S. Employment Office and asked for a job. She explained that she had two brothers in the service, had never worked in her life; but she wanted to get into industry, and was willing to take any kind of a job in a war-producing plant. She was placed in a munition plant near Newark, and given a job at \$8 a week. In six weeks she had been promoted three times and was earning \$22 a week. The fact that she had had her salary almost tripled in an incredibly short length of time meant nothing to this young girl; but she was inexpressibly happy to feel that she was successful in doing her part and making good on the job assigned to her. That must be the spirit of the American women in industry—to stick to the job and train herself to work as faithfully and well as any man."

In order that the work of women may give the greatest economic value to the community, every precaution is taken not to fit square pegs into round holes. For this reason women who apply to the U. S. Employment offices are asked to give full information relative to their various qualifications, especially regarding their school, college, or technical training.

For full information relative to nursing, hospital assistants, and reconstruction aids, address the Office of the Surgeon General, Washington, D. C., as follows: Nurses—American Nurses' Corps, Student Nurses and Hospital Assistants, Army School of Nursing, Reconstruction Aids, Reconstruction Division.

In addition to the facilities for training offered under the direction of the Surgeon General, there are 1,579 schools and hospitals throughout the country that register nurses, and graduate nurses from these institutions are eligible to enter the Army hospitals with the same standing as graduates of the Army School of Nursing, according to the Committee on Nursing of the Council of National Defense. They are also eligible to service with Red Cross nurses and the Navy Nurse Corps.

AN IMMEDIATE OPERATION THE ONLY CURE

Another opportunity for training is given by the War Industries Board, which is offering in many large cities War Emergency in Employment Management. There are many methods advanced for maintaining happier relations between capital and labor. The solution offered by the Employment Management Section of the War Industries Board is the organization of an employment department, and the putting of all matters having to do with living wage setting, transfers, promotion, and voluntary employee relations into the hands of a competent and especially trained officer.

This Section has secured the services of the foremost instructing authorities in the country on subjects dealing with employment management, and personnel work. The courses are located in points where universities and industries can cooperate; such as Boston, New York, Rochester, Pittsburgh, Seattle, Cleveland, Chicago, Cincinnati, and Berkeley, California.

To these courses employers are invited to send men and women of their own choosing, subject to the approval of the Section. It will be understood that such candidates are to return to their sponsors, and the utilized by them in employment work. In the beginning, ten per cent. of the applicants for these courses were women, now fifty per cent. of the students are women, and the instructors are enthusiastic over the progress they are making. A preliminary course in Employment Management was started in Cleveland this autumn, and a subsequent course will be arranged there.

The position of employment manager offers a lucrative field of endeavor for women, and like all work that pays well, the standard for service is high. It would only appeal to a woman, who has some knowledge and liking for factory or shop life. The salient requirements are tact, common sense, resourcefulness, imagination, a broad outlook on life, warm sympathy, a capacity to bear responsibility. Those interested in this new profession should write to Captain Boyd Fisher, 717 Thirteenth Street, N. W., Washington, D. C.

In order to train women to take the places of men who have entered the Service, the Railroad Administration has organized schools of instruction in several forms of railroad and office work. Officials state that the response has been so prompt that instruction agencies have many more applications than can be accepted. They are now taking only applicants living in the vicinity of established schools.

There is a shortage of teachers for radio classes of conscripted men and women are eligible for this line of endeavor. The Woman's Radio Corps, 74th Street and Amsterdam Avenue, New York City, has the approval of the Federal Board for Vocational Training in training women as radio operators for teaching positions.

Those who satisfactorily complete the course go up for the test before the United States Bureau of Navigation and receive a first-grade commercial license, the same as wanted to men who qualify in the same way.

A JAVA ORCHID

There is a very interesting orchid in Java, the grammatophyllum, all the flowers of which open at once, and they also all winter together.

The only sure things of life are the things that already have happened.

A NATION OF MENIALS

(Christian Science Monitor)

It is interesting to speculate whether the eventual downfall of Prussianism will tend to curb that most undemocratic practice, so highly organized in the Fatherland, the offering of Trinkgeld. The five-pennig tip for the "ober," the one-pennig gratuity for the car conductor for his services in collecting the fare, with all the ramifications of the system in social activities, are but symbols of the accepted superiority of the giver and the accepted inferiority of the receiver; they are responsible for a miserable pretense of friendship and courtesy based on the hope for reward; they fan the humiliating desire for largesse. Surely the ideal democracy will not contentance this relic of feudalism; its citizens will demand of their neighbors respect rather than Trinkgeld.

HAND MIRROR SAVES LIVES OF FIFTY U-BOAT VICTIMS

London.—A woman's hand mirror was the means of saving fifty lives from the torpedoed liner Galway Castle. Among the survivors on a raft was a woman who took from her hand bag a small mirror and suggested one of the sailors use it for making heliographic signals. The attempt was made and the signals brought a destroyer at full speed.

It takes a bachelor with money to exterminate the weeds from a widow's bonnet.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

THE DORF'S

BLACK-DRAUGHT

recommended very highly, so began to use it. It cured me. I keep it in the house all the time. It is the best liver medicine made. I do not have sick headache or stomach trouble any more." Black-Draught acts on the jaded liver and helps it to do its important work of throwing out waste materials and poisons from the system. This medicine should be in every household for use in time of need. Get a package today. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c a package. All druggists.

ONE CENT A DOSE

VALUABLE ADVICE

Maysville Citizens Should Profit By The Following Statement.

Doan's Kidney Pills were used by this Maysville resident. Their merit was shown—the story told. Now comes further evidence. The testimony is confirmed. The remedy was tested—the results lasted.

Could Maysville residents demand stronger proof? It's Maysville testimony. It can be investigated.

A Sorries, lock and gunsmith, W. Second and Wall Sts., gave the following statement in January, 1912: "The action of my kidneys was irregular and the kidney secretions contained sediment. I had backaches and when I stooped over, I had trouble in straightening up. Colds settled in my back and kidneys, too. Doan's Kidney Pills stopped the trouble and my back and kidneys became as strong and well as ever."

A LASTING EFFECT
On November 14, 1916, Mr. Sorries said: "I am the same strong believer in Doan's Kidney Pills today, as when I gave my former endorsement. I haven't had any trouble with my kidneys in that time and I believe the cure they gave me will be permanent."

Mr. Sorries is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Sorries had—the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

SAVE PRUNE STONES FOR CARBON

Be it ever so humble, the prune is a patriotic food. Depending on their size, between two and three hundred prune stones will furnish enough carbon for one gas mask. This carbon acts as an air filter and is the soldiers' protection against the deadliest German poison gas.

When the American housewife, or the American man or girl or boy, has saved enough fruit stones to make a gas mask, he or she may rest assured that the mask will be twenty times as efficient as any which the "scientific" Huns have been able to make.

Sources from which suitable carbon can be secured are extremely limited in amount, and the Food Administration points out that prune stones, which make on excellent quality of carbon, must not be wasted. In addition to prune stones, peach stones, apricot pits, olive pits, date seeds, cherry pits and plum pits, Brazil nut, hickory nut, walnut and butternut shells furnish material for gas mask carbon. No other pits or shells should be substituted.

The Food Administration urges all Kentuckians to take their collections of dried pits and shells to the nearest Red Cross station, thereby making a definite contribution to the safety of America's soldiers overseas.

The case of Wheatley against the Sardis Milling Co., which was to have been tried today before Judge Purnell was postponed on account of litigants failing to appear.

Two SMALL FARMS FOR SALE

We have two good farms for sale belonging to Mr. Green McDonald at Sand Hill Station on the C. & O. R. R.
Farm No. 1 contains 120 acres. This farm has on it a small house, and is all bottom land and very productive. Price \$62.50 per acre.

Farm No. 2—Adjoins farm number one and is up land, and contains 125 acres. The improvements consist of a 5-room house, tobacco barn and usual outbuildings. Price \$40.00 per acre. Here is some very cheap land, and it is priced so it will sell. In our judgment you can't go wrong in buying land that is priced this way.

CORN AND TOBACCO FAIR POSTPONED INDEFINITELY

Chamber of Commerce Directors Decide to Not Hold the Fair—Other Important Business Transacted.

The Board of Directors of the Maysville Chamber of Commerce met last evening, all members present save Bell and Chambers. The minutes were read and approved. The committee appointed at the last meeting, under the leaderships of J. N. Kehoe, to straighten the financial difficulty existing between this city and the Ohio Valley Improvement association reports that they were unable to settle up the matter on account of numerous other present matters, and asked for an extension of time on the work.

Corn and Tobacco Fair Postponed Indefinitely

Chairman Merz, of the Corn and Tobacco Fair committee, presented the opinion of the committee in stating that they had decided that it would be best to postpone the fair on account of present existing conditions through out the State, and in conformity with the request of the State Board of Health that there be no gathering of assemblages. No one knows just when this order will be lifted, and the committee felt that the citizens would approve of the action taken by the board of directors. The postponement of the fair was approved by the directors and the date set for the latter part of December or the first of January.

The attention of the board of directors was called to the erroneous idea that is going the rounds throughout the county and adjoining counties regarding the influenza conditions prevailing in Maysville, and while the situation demands careful precaution, there is no reason for our neighbors being alarmed to the extent that they can not transact their regular trading. The business houses have taken every precaution in the operating of their business, and there is no danger in customers making their purchases in the Maysville stores.

A great many people who have read Dr. Locke's report in the papers have understood that the report was the case in Maysville. This is not so; the cases reported by Dr. Locke are of the entire county.

Boys' Band Is Decided Upon

The directors reported that while they had been very successful in securing a majority for the boys' band, they had been unable to secure the fifty necessary to guarantee a contract with Mr. Young. About fifteen more are needed, and they felt these

could be obtained. A committee, consisting of Messrs. A. L. Merz, A. L. Glascock, F. L. Hendrickson, R. A. Cochran and Secretary Dodds, were appointed by the president to wait on the business men today and secure the necessary guarantee. As Mr. Young's present contract expires Friday, and the board of directors felt that the organized guarantee could be secured, the secretary of the Chamber of Commerce was instructed to communicate with Mr. Young by wire the acceptance of his proposition. Secretary Dodds attended to the matter last evening, and Mr. Young will no doubt arrive in this city the latter part of the week.

A. L. Merz Elected Member Board of Directors

The resignation of Director B. Y. Chambers was received and the board of directors expressed their regret at losing such a valuable worker as Mr. Chambers, and wish him much success in his new position. Mr. A. L. Merz was unanimously elected to fill out the unexpired term of Mr. Chambers. Mr. Merz has previously served as a director in this organization, and all his work in helping build up the institution has been of a highly commendable nature.

A letter was received from Prof. H. C. Barnes, who is now one of the U. S. Y. M. C. A. units, thanking the Chamber of Commerce for presenting him with an honorary membership during the period of the war.

The application of Mr. Frank Carpenter for membership was presented by Member Glascock, was accepted by the Board of Directors.

THE BURNING QUESTION

(Leslie's Weekly)

The fuel question, which may be said to be like a fire that has died down during the heat of summer, will flare up again with the approach of cold weather, and from now on it will resume its place as the "Burning Question."

Remembering the "heatless days" and the shutdown of industry for lack of fuel the consumer naturally puts the query: "Will there be enough fuel to keep me warm next winter?"

In answering this question the consumer must bear in mind that besides his own coal there must be furnished millions of tons for the great munition plants, ships, railroads, the army and navy and the various industries named as essential, and besides these, a certain amount of fuel to the non-essential industries.

In the Eastern States anthracite is almost exclusively used for domestic purposes. The smaller sizes are used for steam-firing in hotels, apartment houses, manufacturing plants, etc. In many cases, it is customary to mix small sizes of anthracite with bituminous coal was not available in New York, and the hotels found it necessary to use the larger sizes of anthracite, thus depriving the consumer of hard coal. There is little doubt that this condition will not exist this winter.

Last year's production of anthracite was \$9,000,000 gross tons. The current production by months is at a rate in excess of the production last year. The Anthracite Committee of the Fuel Administration made an allotment for each section of the country. The increase of anthracite to New England this year is 16.95 per cent over 1917. To the Atlantic States it is 12.69 per cent, increase for the same period. In all other sections it has been decreased, and to some sections no anthracite at all will be shipped.

The reason consumers in some cities have not secured their full supply of anthracite is because the best policy has been to get the faraway sections from the mines stocked up first; in other words, to give them their allotment, or as much as possible, before cold weather.

HELP IS URGENTLY NEEDED IN WASHINGTON

Well-Paid Job in Government Departments Await Competent Workers In Various Lines.

Help is still urgently needed by the Government departments in Washington. There are available jobs ranging from \$540 a year for junior aid up to \$3,500 for pulp and paper engineer, announced by the Civil Service Commission.

Inspectors of telephone equipment are needed. The salary is \$1,800 a year. Only men are eligible. Applicants must be high-school graduates, and must have had three years' experience in manufacturing, testing, or installing telephones. Inspectors of telegraph equipment who have equal familiarity with that work will be paid \$1,800 a year. The pay for inspectors of radio equipment is the same, and inspectors of vehicles, including automobiles, will receive \$1,500. Salaries of \$1,500 are offered for inspectors of field glasses who are familiar with the work.

Laboratory assistants and aids in the Bureau of Standards are also in demand. They will receive from \$900 to \$1,080 a year, according to experience, and both men and women are eligible. More highly qualified laboratory assistants may receive entrance salaries of \$1,200 to \$1,380 a year.

Men who want to become apprentice fish culturists, at entrance salaries of \$600 to \$690 a year, may take examinations at various places in the United States on November 20 and December 11. High-school graduates can find places at \$540 to \$720 a year as junior aids in the Bureau of Standards.

A vacancy in the Forest Products Laboratory at Madison, Wis., will be filled by the Civil Service Commission, which is seeking a pulp and paper engineer at a salary of \$3,500 a year. Applicants will not be assembled for examination, but will be rated on sworn statements of education and experience and corroborative evidence obtained by the commission. Applications should reach the commission by the closing hour on October 29.

There is a continuous demand for bookkeepers. The basic salary is \$1,000 a year. Appointments may be made at higher or lower salaries, according to experience and the results of examinations, which are given every Tuesday.

The Department of Agriculture needs plant pathologists, male and female, at salaries of \$1,200 to \$2,400 a year, and assistants in plant nutrition at \$1,380 a year. Applications should be prepared promptly.

Locksmiths are wanted by the Post Office Department and in the Treasury Department at \$3.50 a day and \$1,000 a year, respectively. The examination is set for November 5. Women are eligible for appointment as copyist topographic draftsmen as well as men. These positions pay \$1,100 to \$2,000 a year.

Editorial clerk examinations will be given November 20 and December 11, and salaries are set at \$1,200 to \$1,600 a year. Women may apply for these positions. Men only, however, may apply for the position of inspector of dairy products at \$1,800 to \$2,400 a year.

Good jobs for qualified men are available in the Forest Service, which seeks an industrial specialist in forest products. Salaries range from \$1,500 to \$3,500, according to education and experience. Tolul experts (men only) can get \$1,800 to \$3,000 a year. An investigator in seed marketing is wanted at a salary of \$2,250 to \$3,000 a year. Men who want jobs on Indian reservation in Oklahoma can find work as oil gaugers, if they have had the required experience, at salaries of \$1,200 to \$1,800 annually.

Physicians are needed for the Panama Canal; junior engineers are needed to \$1,500 a year; and inspectors of engineering materials are required by the Navy Department at \$4.48 to \$5.92 a day.

Jobs open alike to men and women include those of balance of stores clerk, Ordnance Department, at \$1,200 to \$1,600 a year; assistant engineer of tests, Navy Department, \$3.76 to \$4.96 a day; and assistant in the pathological laboratory, Bureau of Plant Industry, \$1,800 a year.

Fancy Greenup County Sorghum
\$1.35 per gallon. Bring your jugs.
R. LEE LOVEL.

COLORED NEWS
Mrs. Samuel Robinson of 1218 Chester street is ill and will not be able to make any calls before the first week in November.

The representative colored women of this city are doing all they can to relieve the suffering among their people. Miss Janie Smith and Mrs. Davis have been added to the list. These women are going from house to house and to the emergency hospital where they carry the food to the suffering. If some kind hearted citizen would put a buggy and horse at the disposal of the committee we would be very grateful.

TO OUR CLIENTS AND FRIENDS

The Bank of Maysville takes this opportunity to extend its thanks to its customers and friends whose hearty response to our country's appeal enabled this bank to exceed its quota of \$201,300 by the sum of \$80,500 of the Fourth Liberty Loan, making the total amount of subscriptions received through this bank of \$281,800.

The same spirit of practical, unqualified devotion in which our men are so finely doing their task over there, made possible successful performance of the duty "over here" of putting the Fourth Liberty Loan "over the top."

With appreciation of this spirit of American achievement we, again thank all who have so splendidly co-operated with this bank in contributing to the success of the Fourth Liberty Loan.

BANK OF MAYSVILLE

ESTABLISHED 1835. MAYSVILLE, KY.

NICE LOT OF MEN TO LEAVE FOR CAMP KNOX

Col. J. H. Patton Rounds Up About a Carload—They Will Leave Thursday Afternoon.

Mr. J. H. Patton of Louisville, U. S. Department of Labor, Public Service Reserve, is still in town, and says to come on boys and get in line for Camp Knox. There will be from 50 to 100 genuine American patriots leave Maysville for Camp Knox on Thursday afternoon. A large number is expected from Flemingsburg also.

A great many of these men have left their non-essential work to enter work that will help free the world from liars and barbarians, as President Wilson recently told them in plain English in his last note.

As has been repeatedly stated Camp Knox will be completed whether the war ends in one week or one year and it is the duty of every able-bodied American citizen to leave their non-essential work and enter some work necessary to running the war.

As one Maysville man remarked today as he signed up for Uncle Sam's work, some of the men in Maysville who have contributed to Red Cross, Y. M. C. A., etc., and bought Bonds and Stamps think they have made sacrifices but, if Russia puts about 5,000,000 men who undoubtedly are being trained with all the skill at the command of the German army are put on the Western front next spring, then we will begin to think about sacrifices.

There will be a parade Thursday afternoon to the depot to catch the 3:40 train for Cincinnati. Everybody in Maysville is invited to come down town and see this parade. No admission will be charged. Parades, sunshine and fresh air are still free, so

everybody come and give the boys a hand, they are going to do their duty.

JAMES HUNT "AGAIN IT"

James Hunt, one of this city's big-hearted fellows, has gotten in bad. Tuesday Deputy United States Marshal Oscar West came here and arrested Jim on a warrant charging him with having violated the espionage act, and took him to Covington, where he appeared before U. S. Commissioner Bell. The witnesses are Mr. and Mrs. Roy Adams. Jim stoutly denied all the charges and claimed it was a piece of spite work framed up against him.

BODY NOT FOUND

After a fruitless search for some time several men who were detailed to try and find the body of C. G. Ham, who drowned himself at the dam Tuesday, gave up the task. Nothing is known of the unfortunate save that he came here from Louisville with a carload of men sent from there to work on the dam.

On account of the influenza condition the Board meeting of the Women's Committee of the Council of National Defense, will not be held this week.

MRS. GEO. R. LONGNECKER,
Chairman for Mason County.

Catarh Cannot Be Cured.

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions and in order to cure it you must take an internal remedy. Hall's Catarh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Hall's Catarh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarh Medicine is what produces such wonderful results in catarh conditions. Send for testimonials, free.
